Event Management CRUD with Poster Upload and File Validation

Problem Statement:- Develop event management functionality for admin users. Admin can add, view, update, delete, and upload event posters with file type and file size validation.

Objective:- To develop an event management module for admin users that enables them to add, view, update, and delete events, as well as upload event posters with proper file type and file size validation to ensure secure and efficient event management.

db.php:

```
<?php
session_start();

$conn = new mysqli("localhost", "root", "", "event_management");

if ($conn->connect_error) {
   die("Database connection failed.");
}

$conn->set_charset("utf8mb4");

// Check whether the admin is logged in.
function requireAdmin() {
   if (empty($_SESSION["admin_logged_in"])) {
      header("Location: login.php");
      exit;
   }
}

// Escape output before displaying it in HTML.
function e($value) {
   return htmlspecialchars((string)$value, ENT_QUOTES, "UTF-8");
}
?>
```

edit.php:

```
<?php
require_once "db.php";
requireAdmin();

$id = filter_input(INPUT_GET, "id", FILTER_VALIDATE_INT);

if (!$id || $id < 1) {
   header("Location: index.php?message=" . urlencode("Invalid event ID."));
   exit;
}

$stmt = $conn->prepare("SELECT * FROM events WHERE id = ?");
$stmt->bind_param("i", $id);
$stmt->execute();
$event = $stmt->get_result()->fetch_assoc();

if (!$event) {
   header("Location: index.php?message=" . urlencode("Event not found."));
   exit;
}

$error = "";

Valid poster upload:

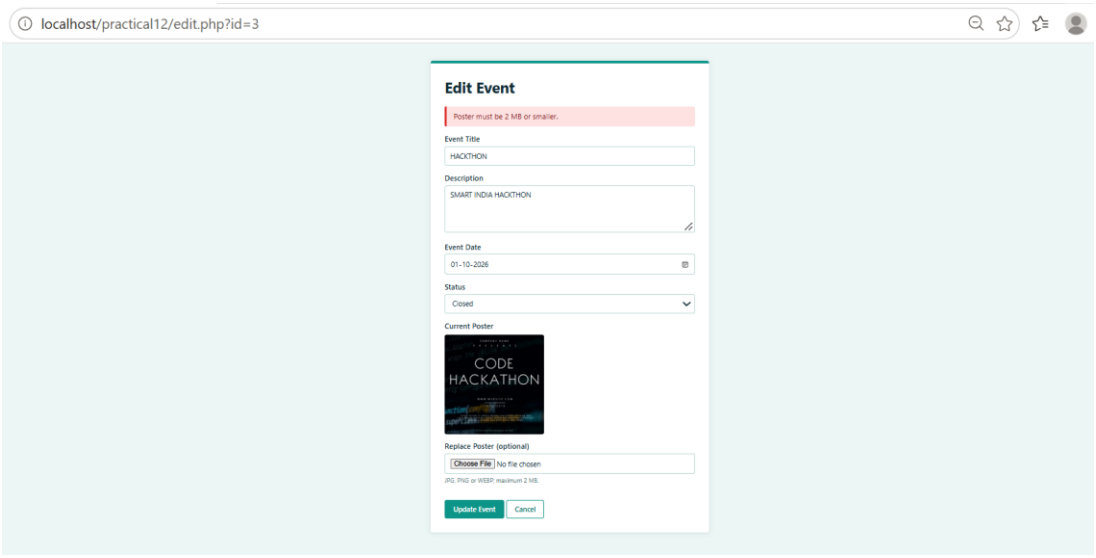

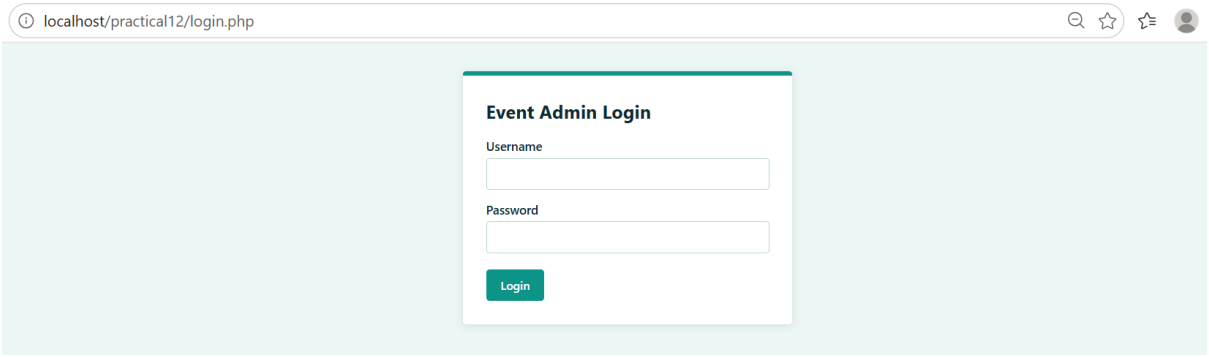

Invalid file type validation:

File size limit validation:

Unauthorized user access restriction:

After logging out, an attempt to access the admin dashboard redirects the user to the login page. This confirms that the dashboard is protected against unauthorized access.

Learning Outcome:

To develop event management functionality for admin users by implementing operations to add, view, update, and delete event records, along with secure event poster uploads using file type and file size validation.
